

# FRUIT ENZYME SERUM

---

Fruit Enzyme Exfoliating Serum is a unique non-oily natural enzyme system which loosens blackheads and exfoliates other debris that clog pores. It also hydrolyzes (dissolves) and exfoliates the dead cells of the outermost layer of the skin's surface. It is recommended for all types of skin and is also very beneficial for problem, oily, pigmented, dull, and tired skin.

**Key Ingredients:** Aloe Vera Gel, Extracts of Calendula and Thyme Leaves and Sage Leaves, Papaya Extract, Pineapple Extract, Retinyl Palmitate, Papain, Sodium PCA, Glycerin.

**Directions:** Apply directly to the skin after cleansing, or prior to the application of any other facial product. Best results are achieved when used twice daily.

**Professional in salon use:** This lightly textured treatment gel combines pure fruit enzymes with active and natural herbal extracts for a mild skin exfoliation and texture refining treatment. Could be used during facial treatment by applying a thin layer to cleansed and moistened skin prior or following treatment moisturizer and mask application. Serums are vehicles for active ingredients. Could be used with galvanic (+) or ultra-sound equipment to improve penetration. Massage gently in circular motions for 2-5 minutes. Avoid eye area. Rinse thoroughly, then follow with an appropriate soothing mask followed by moisturizer. For sensitive skin types dilute a small amount of serum with purified water (50/50 ratio) prior to application. Could be added directly into facial creams and masks (a few drops) immediately prior to skin application (helps to boost product performance). For neck and décolleté area treatment apply to clean skin. After place a small amount of the Eye and Neck Cream on tips of fingers, rub together, and then gently massage with upward and outward strokes. Could be used for in-salon skin brightening, decongestive and anti aging treatments by incorporating with other products (Oxygen Mask, Collagen Mask, Placenta Mask, Mint Mask, Volcanic Mud Mask, Lifting Mask). The enzyme level of this product is mild and suitable for sensitive skin types. For a stronger in-salon enzyme treatment with steam use the Phytozyme Exfoliation System. Helps to improve the penetration of following treatments.

**Key ingredient functions and product benefits:** The synergistic blend of Green Papaya Extract, Pineapple Extract, Bromelain, and Papain, in this active serum helps to start a gentle, yet effective biological peeling cycle. This process helps to remove dead skin cells from the surface without affecting live skin tissue. Helps to root out impurities, whiteheads, blackheads and improve skin texture. Aqueous Extract of Calendula and Thyme Leaves and Sage Leaves help to calm inflammation and refine pores. Glycerin and Sodium PCA improve moisture levels. A light and fresh citrus scent. Stimulates cell renewal and with regular use, improves skin's texture and feel. Increases cell turnover, enhances micro-circulation. Helps to break down pore clogging oils. 505
