

VITANOL-A

Vitanol-A Complex is a liposome encapsulated system of Retinol, Vitamin C, Beta Glucans and Amino Acids. It softens and smoothes while helping to improve skin firmness. Retinol and Ascorbic Acid are potent stabilized anti-aging vitamins that are very effective in helping to visibly reduce the appearance of fine lines, wrinkles, age spots, sun damage, and large pores. Beta Glucans are derived from yeast cell walls and are extremely effective in increasing moisture, activating the immune system of the skin, and inhibiting irritation.

Key Ingredients: Aloe Vera Gel, Retinol, Extracts of Chamomile and Calendula, Ascorbic Acid, Yeast Polysaccharides, Palmitoyl Oligopeptide, Palmitoyl Tetrapeptide-7, Polyamino Sugar Condensate, Sodium PCA, Ascorbyl Palmitate, Ginseng Extract, Allantoin, Pure Essential Oils*: Lavender, Sandalwood, Ylang Ylang, Balm Mint, Roman Chamomile.

Directions: Apply directly to the skin after cleansing, or prior to the application of any other facial product. Best results are achieved when used twice daily. Daily use of a sun protection cream is recommended while using this product.

Professional in salon use: This lightly textured treatment gel combines pure essential oils with active anti-aging and skin brightening ingredients. Could be used during facial treatment by applying a thin layer to cleansed and moisturized skin prior or following treatment moisturizer and mask application. Serums are vehicles for active ingredients. Could be used with galvanic (+) or ultra-sound equipment to improve penetration. For sensitive skin types dilute a small amount of serum with purified water (50/50 ratio) prior to application. Could be added directly into facial creams and masks (a few drops) immediately prior to skin application (helps to boost product performance). For neck and décolleté area treatment apply to clean skin. After place a small amount of the Eye and Neck Cream on tips of fingers, rub together, and then gently massage with upward and outward strokes. Could be used for in-salon skin brightening, anti-aging and anti-oxidant treatments by incorporating with other products (Skin Recovery Mask, Oxygen Mask, Collagen Mask, Placenta Mask, Lifting Mask).

Key ingredient functions and product benefits: Stabilized Retinol (Retinol is the natural form of Vitamin A) in this active serum helps to thicken the epidermis and regulate the renewal of skin cells. Encapsulated retinol releases gradually to extend the activity of Vitamin A. Polyamino Sugar Condensate, Sodium PCA, and Sodium Hyaluronate provide moisture binding activity. Yeast Polysaccharides (beta glucans) help to support the immune cells in the skin for improved skin protection. Extracts of Chamomile and Calendula help to tone, refresh and purify. Ascorbyl Palmitate helps to refine and brighten the skin. Contains Pentapeptides for improved Collagen and Elastin production to further reduce and slow the formation of new lines and wrinkles. Boost your skin's ability to repair damage and look naturally younger and healthier. Smooth rough skin texture. Scented with pure essential oils. 501 *Organic
