

BLEMISH CONTROL GEL

Oily skin is prone to blackheads, breakouts, and large pores, especially in the T-zone (forehead, nose, and chin areas). When sweat glands produce too much oil, pores become clogged with a mixture of sebum and dead skin cells. Accumulated sebum contains propionic acid bacteria, which is released into the tissue causing an inflammatory reaction. Blemish Control Gel reduces shine, absorbs moisture and perspiration, providing a long lasting smooth and non greasy matte finish. Encapsulated Tea Tree oil combines anti-microbial, and anti-inflammatory activities, while micro-sponge technology helps to absorb excess oil and assists with time released delivery of multi-hydroxy acids for gentle exfoliation. These processes help to prevent cell build up and clogged pores, while Vitamin B Complex (Yeast Extract) helps to regulate oil gland secretion.

Key Ingredients: Aloe Vera Gel, Witch Hazel Extract, Refined Sea Water, Glycolic Acid, Lactic Acid, Malic Acid, Tea Tree Oil, Silica, Tocopheryl Acetate, Yeast Extract, Lavender Extract, Sodium PCA.

Directions: Apply to the face twice daily prior to application of moisturizer or make up. Repeated use helps to reduce oiliness, skin problems, and fine lines.

Key ingredient functions and product benefits: Glycolic Acid, Lactic Acid, and Malic Acid effectively accelerate the exfoliation of the skin's dead cells, diminish superficial sun damage and reduce the appearance of fine lines. Aloe Vera, Tea Tree Oil, Silica, and Yeast Extract (Vit.B) help to balance the skin's pH and control oil, bacteria, reduce shine, blackheads, whiteheads, breakouts, and inflammation associated with oily and problem skin. Sodium PCA fights dehydration to maintain skin's moisture balance. Refined Sea Water makes skin feel soft, light, and velvety by providing it with nutrients and minerals. Organic* #703
